

Seven reasons to finance your equipment with DroneXperts :

- 1. Get 100 % financing :** The DroneXperts Leasing solution provides complete financing without any down payment. The equipment, accessories and services can be financed, allowing you to acquire a turnkey solution.
- 2. Retain your valuable working capital :** Equipment you purchase with cash depletes your working capital. With DroneXperts Leasing, your cash can be used more efficiently for other purposes.
- 3. Facilitate your budgeting and protect against market fluctuations :** DroneXperts Leasing provides another source of financing. This allows you to purchase the equipment you need without affecting your ability to finance your inventory or other more important short-term needs. Your company's growth potential will benefit from using DroneXperts Leasing as an additional source of capital.
- 4. Avoid obsolescence :** To quote an old saying, "Revenue is generated by using assets, not by owning them". Crédit-Bail DroneXperts allows you to use the equipment you need over its useful life. Crédit-Bail DroneXperts gives you all the advantages of ownership without the risk of being confronted with obsolete technology. Technology is evolving rapidly, so you might as well be ahead of the competition.
- 5. Take advantage of an ease of acquisition :** Crédit- Bail DroneXperts offers you the convenience of a one-stop shop. Once your order is prepared, you just have to choose the payment terms that suit you best.
- 6. Take advantage of tax benefits :** Given the accounting and tax treatment of leasing, Crédit-Bail DroneXperts could provide tax benefits to your company. The resulting savings will vary according to the type of equipment, the duration of the lease and your marginal tax bracket. Generally, lease payments can be treated as operating expenses rather than capital expenditures, allowing a full and immediate deduction. Please consult your accountant for more information on potential savings.
- 7. Take advantage of self-financing :** Lease payments are generally made from the revenues generated or the savings realized on the use of the equipment. Therefore, the use of DroneXperts Leasing allows you to make a gain from the first month of use.
